Education

- **Thapar Institute of Engineering and Technology** — **Patiala, Punjab, India**
  Bachelor of Engineering in Computer Science - CGPA: 8.6 — *Aug 2023 – May 2027*
- **Sarvodya Bal Vidyalaya** — **Narela, Delhi, India**
  Central Board of Secondary Education (Class-XII); Percentage: 93.4% — *Apr 2021 – Mar 2023*
- **Hindu Vidyapeeth** — **Sonipat, Haryana, India**
  Central Board of Secondary Education (Class-X); Percentage: 92.6% — *Apr 2019 – Mar 2021*

Core Skills

- **Languages**: C++, Python, JavaScript, TypeScript, SQL,
- **Backend Development**: Node.js, Express.js, FastAPI, Flask, Django, REST APIs
- **Frontend Development**: HTML, CSS, React.js, Next.js, Tailwind CSS
- **Databases**: PostgreSQL, MySQL, MongoDB, Firebase, ChromaDB, Vector Databases
- **AI/ML**: LLM APIs, LangGraph, RAG, Multi-Agent Systems, LLM Evaluation
- **Fundamentals**: DSA, OOP, DBMS, OS, Computer Networks, System Design, LLD
- **Tools & Cloud**: Git, GitHub, Docker, AWS, REST APIs, Selenium, BeautifulSoup, Pandas, Streamlit

Experience

- **VzenCare – AI Eye-Care Startup** — **Remote**
  Software Development Intern – AI/ML — *Jun 2025 – Aug 2025*
  - **AI Eye-Care MVP**: Co-built an AI-powered eye-care MVP at VzenCare, developing a retinal-image ML workflow for disease and stage prediction with a **MongoDB-backed** data pipeline for scalable medical data management.
  - **National Recognition**: Contributed to VzenCare's journey from National Finalist among 1,000+ startups to **All India Rank 1** at UptoSkills StartupThon, a 6-month national competition, earning recognition and rewards worth **INR 2 Lakh**.
  - **Product & Team Collaboration**: Collaborated with a 10+ member founding team on MVP development, feature scoping, and stakeholder presentations, contributing to features including **fatigue detection, personalized rest recommendations, and early eye-disease detection**.
- **Microsoft Learn Student Chapter (MLSC)** — **Campus**
  Technical Leader — *Sep 2023 – May 2025*
  - **Technical Leadership**: Led a 25+ member team to organize 10+ technical events, including workshops, coding sessions, and the Ideathon, engaging **500+ participants** across campus.
  - **Project & Community Development**: Designed and coordinated technical challenges, mentored students through hands-on development activities, and contributed to code reviews, debugging, and deployment of technology-focused projects.

Projects

- **AI-Native Email Intelligence Platform** | *GitHub* | *Live* — **2026**
  Next.js, FastAPI (Python), REST APIs, LangGraph, ChromaDB, Multi-Provider LLM Integration
  - Built a full-stack **JEV-aligned** AI customer-support platform with Next.js and an **async FastAPI** backend, orchestrating a **multi-agent LangGraph workflow** for intent classification, document retrieval, and response generation.
  - Implemented RAG with ChromaDB over a structured JSON knowledge base of policies and FAQs, reducing irrelevant responses by **40%** through semantic retrieval and context-aware generation.
  - Designed **Claude → Gemini failover** for LLM reliability and an automated evaluation pipeline using BERTScore, semantic similarity, and LLM-as-a-judge, improving response-quality monitoring by **35%**.
- **Project Evaluator – Coursera Certificate & LinkedIn Post Verifier** | *GitHub* | *Live* — **2026**
  Python, Streamlit, Selenium, Pandas, Multi-threading, BeautifulSoup
  - Built a verification tool to replace manual checking, batch-validating **500+ Coursera certificates and LinkedIn posts** using Python, Selenium, BeautifulSoup, and Streamlit.
  - Designed a **multi-threaded pipeline** for concurrent verification and data extraction, reducing processing time by **60%** compared with sequential execution.
  - Implemented fuzzy matching to auto-detect inconsistent Excel column names and generate evaluation reports, removing manual column mapping and review effort.

Achievements & Certifications

- Achieved **LeetCode Guardian(2142)** level, ranking in the **Top 1.25%** of users, and **Codeforces Specialist (1452)** rating.
- Solved **1000+ coding problems** and participated in **50+ contests** across various coding programming platforms.
- Participated in **10+ hackathons**, including **2× Smart India Hackathon (SIH)**, and advanced to the **Semi-Finals of Flipkart GRiD 7.0 and one SIH edition**.
- Completed NVIDIA's **Large Language Models and Generative AI Deployment** certification, covering **LLM deployment and Generative AI workflows**.
